Index to *Surveying and Land Information Science* Volume 70

Authors

Alp, Selçuk, Erol Yavuz, and Nihat Ersoy. 2010. Network Adjustment in Surveying Engineering: Linear Goal Programming Versus Least Squares: Land Information Science. 70(1): 29-37.

Avrahami, Yair, and Yerach Doytsher. 2010. Algorithms for Automatic Matching of Polygons or Closed Curves Derived from Different Images: Land Information Science. 70(4): 175-185.

Bartelsen, Jan, and Helmut Mayer. 2010. Orientation of Image Sequences Acquired from UAVs and with GPS Cameras: Land Information Science. 70(3): 151-159.

Benjamin, A., A. Mohamed, and B. Wilkinson. 2010. Sequential Bundle Adjustment Using Kalman Filtering and Optimal Smoothing: Land Information Science. 70(3): 161-169.

Crossfield, James K. 2010. Township—The Board Game: Surveying Education. 70(2): 61-70.

DiGruttolo, Nicholas, and Ahmed Mohamed. 2010. Emerging Unmanned Aerial Remote Sensing System for Intertidal Zone Modeling: A Low-Cost Method of Collecting Remote Sensing Data for Modeling Short-Term Effects of Sea Level Rise, Part I: Raising Awareness: Land Information Science. 70(3): 111-118.

DiGruttolo, Nicholas, and Ahmed Mohamed. 2010. Emerging Unmanned Aerial Remote Sensing System for Intertidal Zone Modeling: A Low-Cost Method of Collecting Remote Sensing Data for Modeling Short-Term Effects of Sea Level Rise, Part II: Close-Range Airborne Remote Sensing: Land Information Science. 70(3): 119-129.

Elithorp, James A. 2010. Matching Educational Methods to Student Profiles in Online Surveying and Mapping Programs: Surveying Education. 70(1): 5-11.

Enemark, Stig. 2010. Land Governance: Responding to Climate Change, Natural Disasters, and the Millennium Development Goals: Land Information. 70(4): 197-209.

Ghilani, Charles D. 2010. Developing Research Skills in an Undergraduate Program: Surveying Education. 70(2): 83-87.

Hebel, Marcus, and Uwe Stilla. 2010. LiDAR-supported Navigation of UAVs Over Urban Areas: Land Information Science. 70(3): 139-149.

Levin, Eugene, Robert Liimakka, and Alfred Leick. 2010. Implementing a New Geospatial Educational Paradigm at Michigan Tech: Surveying Education. 70(4): 211-216.

Meyer, Thomas H., Kazi Arifuzzaman, and Darek Massalski. 2010. Assessing the Accuracy of GEOID03 and GEOID09 in Connecticut: Land Information Science. 70(2): 89-101.

Nettleman, Charles Anthony, Gary Jeffress, and Walter Robillard. 2010. The Necessity for a Land Court in Georgia: Land Information. 70(4): 187-195.

Olaleye, J.B., K.F. Aleem, J.O. Olusina, and O.E. Abiodun. 2010. Establishment of an Empirical Geoid Model for a Small Geographic Area: A Case Study of Port Harcourt, Nigeria: Land Information Science. 70(1): 39-48.

Potts, Laramie V. 2010. The Surveying Body of Knowledge of Hybrid Learning: Surveying Education. 70(1): 13-22.

Potts, Laramie V., Andrew Schmidt, and Robert Hale. 2010. The Great Outdoors: Assisting Student Career Choice in Geomatics: Surveying Education. 70(2): 71-81.

Smith, Scot, Zoltan Szantoi, John Perry, Franklin Percival, and Brandon Evers. 2010. Design Considerations for Remote Sensing Payloads on Inexpensive Unmanned Autonomous Aerial Vehicles: Land Information Science. 70(3): 131-137.

Sutkowski, Silvia. 2010. Defining the Geoid Using the Stokes Formula: Land Information. 70(1): 49-53.

Yu, Zhanjing (John), Gwen Gee, Abdie Tabrizi, Tim Redd, Daniel Torres, Jerry Miller, and Nikos Mourtos. 2010. Development and Implementation of a 3D Laser Scanning Course for Land Surveying: Land Information Science. 70(1): 23-28.

Articles

Algorithms for Automatic Matching of Polygons or Closed Curves Derived from Different Images. Avrahami, Yair, and Yerach Doytsher. 2010. 70(4): 175-185.

Assessing the Accuracy of GEOID03 and GEOID09 in Connecticut. Meyer, Thomas H., Kazi Arifuzzaman, and Darek Massalski. 2010. 70(2): 89-101.

Defining the Geoid Using the Stokes Formula. Sutkowski, Silvia. 2010. 70(1): 49-53.

Design Considerations for Remote Sensing Payloads on Inexpensive Unmanned Autonomous Aerial Vehicles. Smith, Scot, Zoltan Szantoi, John Perry, Franklin Percival, and Brandon Evers. 2010. 70(3): 131-137.

Developing Research Skills in an Undergraduate Program. Ghilani, Charles D. 2010. 70(2): 83-87.

Development and Implementation of a 3D Laser Scanning Course for Land Surveying. Yu, Zhanjing (John), Gwen Gee, Abdie Tabrizi, Tim Redd, Daniel Torres, Jerry Miller, and Nikos Mourtos. 2010. 70(1): 23-28.

Emerging Unmanned Aerial Remote Sensing System for Intertidal Zone Modeling: A Low-Cost Method of Collecting Remote Sensing Data for Modeling Short-Term Effects of Sea Level Rise, Part I: Raising Awareness. DiGruttolo, Nicholas, and Ahmed Mohamed. 2010. 70(3): 111-118.

Emerging Unmanned Aerial Remote Sensing System for Intertidal Zone Modeling: A Low-Cost Method of Collecting Remote Sensing Data for Modeling Short-Term Effects of Sea Level Rise, Part II: Close-Range Airborne Remote Sensing. DiGruttolo, Nicholas, and Ahmed Mohamed. 2010. 70(3): 119-129.

Establishment of an Empirical Geoid Model for a Small Geographic Area: A Case Study of Port Harcourt, Nigeria. Olaleye, J.B., K.F. Aleem, J.O. Olusina, and O.E. Abiodun. 2010. 70(1): 39-48.

Implementing a New Geospatial Educational Paradigm at Michigan Tech. Levin, Eugene, Robert Liimakka, and Alfred Leick. 2010. 70(4): 211-216.

Land Governance: Responding to Climate Change, Natural Disasters, and the Millennium Development Goals. Enemark, Stig. 2010. 70(4): 197-209.

LiDAR-supported Navigation of UAVs Over Urban Areas. Hebel, Marcus, and Uwe Stilla. 2010. 70(3): 139-149.

Matching Educational Methods to Student Profiles in Online Surveying and Mapping Programs. Elithorp, James A. 2010. 70(1): 5-11.

Network Adjustment in Surveying Engineering: Linear Goal Programming Versus Least Squares. Alp, Selçuk, Erol Yavuz, and Nihat Ersoy. 2010. 70(1): 29-37.

Orientation of Image Sequences Acquired from UAVs and with GPS Cameras. Bartelsen, Jan, and Helmut Mayer. 2010. 70(3): 151-159.
